

*cordctrl is a simple yet innovative product for managing the constant mess of the earphone cord to your iPhone, iPod or any other mp3 player or mobile phone. *cordctrl is designed and produced in Sweden. The product is made of 100% high grade liquid silicone and is delivered in its specially designed sealed white plastic packaging. The packaging material is polypropylene, which is a light weight and clean plastic material optimal for consumer packaging and well suited for our recycling systems.
